

# Ingersoll Rand

Single-stage Air Compressors, Electric Drive

## Legendary Performance

Ingersoll Rand, the world's leader in air compressor manufacturing, is proud to bring industrial quality to the commercial and contractor trades.

Designed for the professional, our 3-5 hp single-stage compressors are ideal for almost anyone, from individuals that thrive on do-it-yourself projects to the professional air compressor user. When performance is defined by maximum operating pressure, increased air flow and extended duty cycles, Ingersoll Rand is the product of choice. You'll get a compressor that features maximum air power, reliable precision engineered components and a durable design that is built to last!

## Benefits

- High capacity compressor (up to 18.1 cfm) delivers air with the power to do the job right and in less time
- 100% continuous duty for the toughest applications
- Efficient finger valves that are easy to operate, easy to maintain
- Durable cast iron construction
- Long-lasting extended pump life — over 5,000 hours for years of trouble-free service
- High pressure operation, up to 135 psig
- Extended two-year warranty with use of Ingersoll Rand's All Season Select® synthetic lubricant

Industrial Technologies

## Standard Features

## Oil-lube, Single-stage, Electric Drive

### Durable design

Features 100% cast iron cylinders and frame

### 100% continuous duty cycle

Provides trouble-free performance in the most demanding conditions

### Safe operation

Manual thermal overload protection of the motor, no starter required

### Easy to use

Automatic start/stop pressure switch control with manual on/off lever

### 60 gallon vertical ASME receiver tank

Includes discharge mounted check valve, pressure gauge, drain valve, service valves and relief valves

### Totally enclosed belt guard

Provides shield around flywheel, belt and motor for safe operation

### Meets industry standards

Compliant to OSHA standards and UL/CSA/ASME

### Delivered ready to use

All units are fully assembled, prewired and thoroughly tested prior to shipment

### Even more features!

Quiet operation, 230-1-60 voltage and splash lubrication

Technical Performance										
Model	Motor hp	Receiver Tank Size gal	Voltage	Capacity scfm @ 90 psig/135 psig	Maximum Pressure psig	Length in	Package Dimensions			Net Weight lb
							Length in	Width in	Height in
